Quick learner

EXPERIENCE

UI DEVELOPER (2 YEARS)

Onedirect | 2020
- Developed mobile app for service cloud using **React Native** and **Redux**.
- Developed a website for onedirect from scratch using **HTML5, CSS3, JavaScript, Bootstrap** and **Webpack**, which has **95+ score** on Performance, Accessibility, Best Practices and SEO.
- Developed a static website and desktop application using **React JS** for a product Elyvate.
- Improved the performance of the existing onedirect website loading time from **7s** to **1.2s**, made it mobile responsive and integrated several third party apps.
- Worked on service cloud application and developed new features using **Angular.**

PERSONAL PROJECT

Hashme | 2020
- Developed a mobile app (MVP) using **React Native.**
- Used **Node JS** as backend technology, **Mongodb** as database and developed a micro service architecture
- Containerised each micro service in docker and deployed it in local server machine and created a api gateway
- Used **Jenkins** to build the services, **docker-compose** for managing different micro services, and **Nginx** server to handle website.
